AUDITOR'S REPORT

REPORT OF THE AUDITOR GENERAL OF THE REPUBLIC OF TRINIDAD AND TOBAGO ON THE PUBLIC ACCOUNTS OF TRINIDAD AND TOBAGO FOR THE FINANCIAL YEAR ENDED 30TH SEPTEMBER, 2015

REPORT ON THE FINANCIAL STATEMENTS

1. The Public Accounts of Trinidad and Tobago for the financial year ended 30th September, 2015 as defined by section 24 of the Exchequer and Audit Act, Chapter 69:01 (the Act) have been audited. These Accounts comprise:

- i) Statements of the Treasury showing the financial position of the Country as at 30th September, 2015 as set out at Appendix 1 of this Report;
- ii) Appropriation Accounts of individual Accounting Officers for the year ended 30th September, 2015;
- iii) Statements of Receipts and Disbursements of individual Receivers of Revenue for the year ended 30th September, 2015, and
- iv) Financial Statements of individual Administering Officers of Funds for the year ended 30th September, 2015.

RESPONSIBILITY OF THE TREASURY, ACCOUNTING OFFICERS, RECEIVERS OF REVENUE AND ADMINISTERING OFFICERS

2. The Treasury, Accounting Officers, Receivers of Revenue and Administering Officers respectively are responsible for the preparation and fair presentation of these Financial Statements in accordance with the accounting framework as prescribed by the Treasury. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

3. The Auditor General's responsibility is to audit and report on these Financial Statements in accordance with section 116 (2) and (4) of the Constitution of the Republic of Trinidad and Tobago and section 25 (1) of the Act. The examination was conducted in accordance with auditing standards which require that ethical requirements be complied with and that the audit be planned and performed to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the overall presentation of the financial statements in accordance with financial directives.

5. It is my view that the audit evidence obtained is sufficient and appropriate to provide a basis for the opinion expressed at paragraph 6 of this Report.

OPINION

6. In my opinion, the Financial Statements referred to at paragraph one above present fairly, in all material respects, the financial assets and liabilities of the Central Government as at 30th September, 2015 and the revenue and expenditure of Government Ministries and Departments for the financial year ended 30th September, 2015 in accordance with the cash basis of accounting.

EMPHASIS OF MATTER

EXCHEQUER ACCOUNT - (\$33,367,515,723.84)

7. The Exchequer Account is the bank account for the Consolidated Fund. The Account was overdrawn by \$33,367,515,723.84, an increase of \$1.4 billion or 4.4% when compared with the previous year's balance of \$31,950,190,495.37. This Account has been consistently in overdraft since 2003. The amount was included under Assets in the Consolidated Statement of Assets and Liabilities which resulted in a net credit balance of \$9,720,817,447.45 being shown as Cash and Bank under Assets. Generally accepted accounting principles require that an overdraft of this nature be shown as a liability.

OTHER MATTERS

LOANS FROM GENERAL REVENUE – \$1,998,382,831.54

8. Several loans in this category totalling \$1,801,751,981.54 are not being serviced by borrowers. The collectability of these balances could not be determined.
9. In 2002, Cabinet agreed for principal and accumulated interest amounting to \$2.7 billion with respect to pre-1989 loans to the Port Authority of Trinidad and Tobago to be converted to equity. However, the principal amounts totalling \$1,101,726,932.62 continue to be included as Loans from General Revenue.
10. Details are included at paragraph 5.17 of Chapter 5 of this Report.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

PAYMENTS OUT OF PUBLIC MONEYS TO MEMBERS OF PARLIAMENT

11. Section 25 (2) of the Act requires the Auditor General to set out in his annual report all payments made out of public moneys to a member of each House of Parliament (other than the salary and any allowances and any pension paid to him as specified in that section).
12. In this connection, the following information is provided:

Name	Amount (\$)	Service
Elton Prescott S.C.	29,600.00	Fees as Member of Advisory Committee on the Power of Pardon

SUBMISSION OF FINANCIAL STATEMENTS

13. In accordance with section 24 of the Act, the Financial Statements as outlined at paragraph one above, were required to be submitted by 31st January, 2015. The following Statements were not received by this statutory deadline:
 - Appropriation Accounts from five Accounting Officers. Details are given at paragraph 2.3 of Chapter 2 of this Report;
 - Statements of Receipts and Disbursements from 11 Receivers of Revenue. Details are given at paragraph 3.4 of Chapter 3 of this Report;
 - Financial Statements from seven Administering Officers. Details are given at paragraph 4.6 of Chapter 4 to this Report.
14. The examination of records and documents revealed that in many instances there was non-compliance with Financial Instructions, Financial Regulations and other financial directives. Some comments pertinent to the examination of the Financial Statements and the supporting records and documents have been included at Chapters 1 to 5 of this Report.

SUBMISSION OF REPORT

15. This Report is being submitted to the Speaker of the House of Representatives, the President of the Senate and the Minister of Finance in accordance with the requirements of section 116 (4) of the Constitution of the Republic of Trinidad and Tobago.

GENERAL MATTERS

CHAPTER 1

GENERAL MATTERS

THE PUBLIC ACCOUNTS

LEGAL BASIS

1.1 Section 24 of the Exchequer and Audit Act, Chapter 69:01 (the Act) provides for the submission of the various financial statements comprising the Public Accounts of the Republic of Trinidad and Tobago¹ to be submitted to the Auditor General within four months of the financial year-end of 30th September. These are:

- Section 24(1)(a) – Accounts of the Treasury
- Section 24(1)(b) – Appropriation Accounts of Accounting Officers
- Section 24(1)(c) – Statements of Receipts and Disbursements of Receivers of Revenue
- Section 24(2) – Accounts of Administering Officers of Funds or Trusts.

1.2 Section 3 of the Act states:

“The Minister shall, subject to the Constitution and this Act, have the management of the Consolidated Fund and the supervision, control and direction of all matters relating to the financial affairs of the State which are not by law assigned to any other Minister.”

In this respect the Minister of Finance is responsible for instituting all accounting policies, procedures and processes as well as the system of internal controls. Further, the Permanent Secretary in the Ministry of Finance or an officer in the Treasury authorized by him, is entitled to inspect all records and documents.

1.3 Under section 4 (3) of the Act, the Treasury is required to “so superintend the expenditure of public moneys as to ensure that proper arrangements for accounting to the House for such expenditure are made.” According to the Act, the Treasury means the Minister responsible for Finance and includes such officer or officers in the Ministry of Finance as may be deputed by the Minister to exercise powers and to perform duties under the Act.

¹ Hereinafter referred to as the Public Accounts

CASH BASIS OF ACCOUNTING

1.4 The Public Accounts are presented on the cash basis of accounting. This means that transactions are recognized when cash is actually received or paid. However, certain statements relating to the Public Debt are included for disclosure of present obligations of Government.

1.5 The Comptroller of Accounts issues annual Circulars which provide relevant guidance with respect to the preparation and submission of financial statements. For the year ended 30th September, 2015, the following refer:

Circular	Subject
No. 9 dated August 18, 2015 to Receivers of Revenue	Submission of Statements of Receipts and Disbursements for the financial year ended September 30, 2015
No. 10 dated August 18, 2015 to All Accounting Officers	Submission of Appropriation Accounts for the financial year ended September 30, 2015
No. 11 dated August 18, 2015 to Administering Officers	Submission of Financial Statements and other related documents Re: Unemployment, Infrastructure Development, NUGFW Training, Government Assistance for Tuition Expenses (GATE), Green, CARICOM Trade Support, CARICOM Petroleum and National Wastewater Revolving Funds for the financial year ended September 30, 2015

ACCOUNTING STANDARDS

1.6 Detailed guidance and standards exist with respect to internal controls and maintenance of accounting records in the form of:

- Exchequer and Audit Act, Chapter 69:01 and the Financial Regulations² made thereunder;
- Financial Instructions, 1965³ (issued by the Treasury);
- Financial Regulations (Stores) (issued by the Treasury), and
- Circulars issued by the Treasury.

These Regulations, Instructions and Circulars are intended to safeguard State property and to ensure the collection and use of State resources in the public interest.

1.7 While these are quite robust, they have not been updated with changes in accounting standards and practices over five decades.

² Hereinafter referred to as Financial Regulations

³ Hereinafter referred to as Financial Instructions

1.8 The International Federation of Accountants (IFAC)⁴ issues International Public Sector Accounting Standards (IPSAS) which are considered to be best practice guides and are being adopted by governments world-wide in an effort to increase transparency and accountability and so facilitate better governance.

1.9 The Comptroller of Accounts has advised that a Public Financial Management Modernisation Unit of the Ministry of Finance has been established to be the driver of public sector financial management reform which includes adoption of the Cash Basis IPSAS⁵. A Working Group on Accounting and Financial Reporting Policies and Procedures is to be set up to develop the necessary guidance material. It is expected that Ministries, Departments and other stakeholders will be introduced to the Cash Basis IPSAS during 2016.

Procurement

1.10 With respect to public procurement for the financial year ended 30th September, 2015, the Central Tenders Board Act, Chapter 71:91 legislated for standard procedures and rules for Ministries and Departments and certain Statutory Bodies. In establishing the legal framework and requirements for public procurement, this legislation underscores the principles of good governance, namely accountability, transparency, integrity and value for money and spans the entire process from invitations to tender to the awarding of contracts. Conscientious application of these procedures by public bodies would contribute significantly to ensuring that procurement decisions are made in the public's best interest.

Recent Developments

1.11 For future accounting periods, Government entities would need to be cognizant of the new Public Procurement and Disposal of Public Property Act (No. 1 of 2015), certain sections of which were proclaimed on 31st July, 2015. This legislation seeks to strengthen public procurement systems, covers all public bodies (including State-controlled enterprises) and establishes a new public procurement regime in Trinidad and Tobago. Specific provision is made for the institution of the Office of Procurement Regulation and appointment of the Procurement Regulator both having responsibility for the constant monitoring and review of procurement practices and delivery systems with a view to identifying and maintaining best practice in the area of public procurement.

1.12 The sections of the Act proclaimed thus far include:

- Interpretation – how certain phrases used throughout the legislation are to be construed;
- Objects – to promote the principles of accountability, integrity, transparency, value for money, efficiency, fairness, equity and public confidence among other things in public procurement and the disposal of public property;
- Institution – the establishment of the Office of Procurement Regulation, the Board which will govern said Office including the Procurement Regulator who shall be the Chairman of the Board along with the required qualifications of the Regulator;

⁴ IFAC is the standard setting body for the accounting profession.

⁵ Financial Reporting Under the Cash Basis of Accounting

- Certain Start-up Functions – the setting of training standards to promote best practice in procurement, the issuing and reviewing of guidelines in relation to public procurement and the retention and disposal of public property, and
- Audit – the audit of the accounts of the Office of Procurement Regulation by the Auditor General.

1.13 No Regulator has been appointed to date. On 13th November, 2015, a Bill to amend the legislation *inter alia* inserting provisions for removal of a Procurement Regulator, establishment of a Public Procurement Review Board and disposal of State lands was introduced and referred to a Committee of Parliament. On 26th February, 2016, the Final Report of the Committee was debated and adopted. The Amendment Bill has not been passed formally in Parliament.

AUDIT OF THE PUBLIC ACCOUNTS

CONSTITUTIONAL & LEGAL BASIS FOR AUDIT

1.14 The Auditor General’s mandate for the audit of the Public Accounts and the right of access to all documents as well as the independence of the Office are enshrined in the Constitution of the Republic of Trinidad and Tobago as follows:

S116. (2) *“The public accounts of Trinidad and Tobago and of all officers, Courts and authorities of Trinidad and Tobago shall be audited and reported on annually by the Auditor General, and for that purpose the Auditor General or any person authorized by him in that behalf shall have access to all books, records, returns and other documents relating to those accounts.”*

S116. (6) *“In the exercise of his functions under this Constitution the Auditor General shall not be subject to the direction or control of any other person or authority.”*

1.15 The Exchequer and Audit Act expands this right of access to include explanations and information as well as access to all State property as follows:

S10. (1) *“In the exercise of his duties under this Act the Auditor General shall be entitled—*

(a) to call upon any officer for any explanations and information which the Auditor General may require in order to enable him to discharge his duties;

(b) to authorise any officer on his behalf to conduct any inquiry, examination or audit, and such officer shall report thereon to the Auditor General;

(c) to send for and have the custody of any books, accounts, vouchers or papers under the control of any officer relating to or in any wise concerning the public accounts, and to keep such books, accounts, vouchers or papers for such time as he may require them;”

S10. (2) *“In the exercise of his duties under this Act the Auditor General, or any person duly authorized by him in writing, shall have access to all records, books, vouchers, documents, cash, stamps, securities, stores or other State property in the possession of any officer.”*

AUDIT SCOPE

1.16 For the financial year 2015, audit examinations were conducted at various Ministries and Departments of Government. The audit process entailed a review of the system of internal control applicable to the Public Accounts (including, in certain instances, the internal audit function) and examination of subsidiary books and records⁶ in order to verify the correctness of amounts shown in the financial statements submitted by Ministries/Departments as well as to determine compliance with legislation and/or financial directives in accordance with section 9 (2) of the Act which states:

“The Auditor General shall satisfy himself that—

(a) all reasonable precautions have been taken to safeguard the collection of public moneys and that the laws, directions and instructions relating thereto have been duly observed;

(b) all issues and payments were made in accordance with proper authority and that all payments were properly chargeable and are supported by sufficient vouchers or proof of payment;

(c) all money expended has been applied to the purpose or purposes for which the same was granted by Parliament and that such expenditure conforms to the authority which governs it and has been incurred with due regard to the avoidance of waste and extravagance;

(d) essential records are maintained and the rules and procedures framed and applied are sufficient to safeguard the control of stores and other State property.”

1.17 Sample testing (by both manual and electronic selection) together with physical verification, cash surveys and site visits were employed as considered necessary within the constraints of available human resources.

LIMITATION ON SCOPE / INDEPENDENCE

Ministry of Finance and the Economy – Inland Revenue Division

1.18 Despite the Auditor General’s Constitutional and legal right of access quoted at paragraphs **1.14** and **1.15** above, access to certain data at the Inland Revenue Division was denied by invocation of the official secrecy provisions of section 4 of the Income Tax Act, Chapter 75:01 (refer paragraph **3.12** of Chapter 3).

⁶ Subsidiary books and records include documents showing particulars of Financial Management, Human Resource information, Procurement of goods and services and Asset and Stores Management. The integrity of the subsidiary records contributes to the reliability of the Financial Statements presented by the Accounting Officers/Receivers of Revenue/Administering Officers.

1.19 The interpretation and application by the Board of Inland Revenue of the secrecy provisions of section 4 of the Income Tax Act, have posed a challenge to the audit of revenue at the Inland Revenue Division. A legal opinion on this matter was prepared by the Legal Officer at the Auditor General's Department and forwarded to the Attorney General on 18th September, 2013 for consideration and final approval.

1.20 The Attorney General in 2015 assured the Auditor General that the necessary steps were being taken to ensure that the Auditor General's access to the information is facilitated. To date, there have been no further developments.

1.21 Apart from the information covered by section 4, the weaknesses in internal control and lack of access to information highlighted in paragraphs 2.74 to 2.83 and 3.12 to 3.15 of this Report are red flags that emphasize the need for a more intensive investigation into the operations of this major revenue collector. Unfettered access as laid out in paragraphs 1.14 and 1.15 above is necessary for this purpose.

AUDIT FINDINGS

1.22 Where possible, audit results have been discussed with accounting personnel and/or accountable officers (Accounting Officer/Receiver of Revenue/Administering Officer) at Exit Meetings. Findings have been communicated in writing by way of memoranda addressed to the Permanent Secretary of the Ministry or to the Head of the Department.

1.23 The audit revealed numerous instances at various Ministries/Departments where Financial Regulations and Instructions as discussed at paragraph 1.6 continue to be disregarded.

1.24 The findings as set forth in Chapters 2 to 4 include examples of weaknesses in the system of internal control, as well as non-compliance with legislative requirements and/or financial directives. Comments also cover the lack of proper maintenance of the relevant subsidiary books and records. The state of the Internal Audit function in Ministries and Departments remains a matter of grave concern as in prior years. This issue is covered at paragraph 1.29 below. Treasury Statements for accounts managed by the Treasury such as the Exchequer Account, the Public Debt and Loans Receivable are analysed in Chapter 5.

General Observations

Integrated Financial Management

1.25 The accounting records supporting the production of the Public Accounts are largely manual records some of which were introduced from as far back as 1959. The maintenance of such records presents huge inefficiencies in the accounting, reporting and auditing functions which could be resolved by the introduction of an Integrated Financial Management Information System (IFMIS).

1.26 As part of the current financial management reform, a new Chart of Accounts which would facilitate the introduction of a revised accounting framework (refer 1.9 above) has been developed. The Comptroller of Accounts has advised that arrangements have been made to acquire financing for the continuation of the IFMIS project and final approval is being sought from Cabinet.

Staffing and Training

1.27 As reported in the previous two years, a pervasive need was identified for training of staff of Ministries and Departments in accounting regulations and procedures with a view to enhancing accountability and good governance.

1.28 A number of accounting units are still reportedly understaffed and succession planning for accounting personnel was also identified as weak in many instances. In some cases, adequate resources were not made available to deal with audit requests and issues at the time of the audit. An important entity such as the Treasury Division which is responsible for the production of the Public Accounts and the training of officers in accounting procedures was also reportedly under-resourced and so unable to provide the necessary level of training.

Internal Audit Function in Government Ministries/Departments

General

1.29 Internal Audit is defined as “an independent, objective assurance and consulting activity designed to add value and improve an organization’s operations. It helps an organization accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance procedures.”⁷

1.30 Financial Regulation 13 (4) requires each Accounting Unit to have a check staff and an independent internal audit section.

Benefits and Best Practice

1.31 The internal audit function is a key component of the internal control system of any entity. An effective internal audit function contributes greatly to achieving and maintaining accountability and good governance and ultimately, to effective service delivery.

1.32 Critical elements for effectiveness of the function include objectivity and independence, adequacy and technical competence of staff, integrity of the audit process and related evidence as well as clear reporting and communication lines.

1.33 International Standards for the Professional Practice of Internal Auditing have been issued by the Institute of Internal Auditors and provide best practice guidance for the internal auditors.

1.34 Some standard areas of operation for internal audit are highlighted at **Chart 1**.

⁷ Source – Website of Institute of Internal Auditors

Chart 1: Typical Areas of Internal Audit Activity***Findings of Review***

1.35 Evaluations conducted at certain Ministries and Departments revealed, as in the prior year, common problems such as understaffing and assignment of internal audit resources to routine functions or diversion to non-audit duties or *ad hoc* assignments. As a result, audit coverage is often limited.

1.36 It was found that there is a need for training in internal auditing and related disciplines such as auditing in a computerised environment as well as Information Technology and Value-for-Money auditing. Updated manuals and standard working papers are also needed to allow these units to function more effectively. Some reassessment of the calibre of staff assigned to the internal audit function as well as the qualifications required has also been suggested.

Long-Outstanding Issue

1.37 The state of the internal audit function in Ministries and Departments is a matter of grave concern and has been raised by the Auditor General on a number of occasions. The 1987 “Report of the Auditor General of the Republic of Trinidad and Tobago on a Comprehensive Audit on the Internal Audit Function in Government Ministries/Departments and Statutory Boards”⁸ outlined a number of recommendations (shown in **Chart 2**) for the strengthening of the function. Follow up reviews were performed in the years 1990 and 1994 and during the period October 2009 to July 2011 and major findings reported. The Auditor General’s Reports on the Public Accounts for the fiscal years 2011, 2012, 2013 and 2014 also reiterated the 1987 recommendations. The level of implementation however remained unsatisfactory in 2015.

⁸ Laid in the House of Representatives on 24th April, 1987 and in the Senate on 14th April, 1987.

Chart 2: 1987 Recommendations to Promote Internal Audit Effectiveness

- A. Appoint a central internal audit authority to:
- ✓ Establish/strengthen internal audit divisions.
 - ✓ Establish a central internal audit unit to service the smaller ministries/departments or, as an interim measure, to service entities which do not have an internal audit division.
 - ✓ Establish guidelines, standards and procedures.
 - ✓ Prepare standard audit manuals.
 - ✓ Monitor the operations of the internal audit divisions.
 - ✓ Evaluate and report on the performance of internal audit divisions on a regular basis.
- B. For each internal audit division:
- ✓ Ensure that audit plans cover all areas of an agency's operations.
 - ✓ Ensure that audit programmes are relevant to each area examined.
 - ✓ Ensure that audit programmes are reviewed at regular intervals.
 - ✓ Prepare time budgets for each assignment and analyse variances.
 - ✓ Prepare financial budgets for the internal audit unit.
 - ✓ Update job specifications and distribute to persons concerned.
 - ✓ Ensure that check staff function is not a part of the internal audit duties.
 - ✓ Cease interchanging of staff between the accounting and internal audit units.
 - ✓ Minimize adverse effects of *ad hoc* assignment by careful planning and consideration.
 - ✓ Provide adequate and competent staff.
 - ✓ Provide adequate and relevant training including training in IT audits and auditing in an IT environment.
 - ✓ Maintain a query register and deal promptly with audit queries.

Action Being Taken

1.38 The Ministry of Finance has indicated that the concerns with the internal audit function are being addressed as part of the current reform of the Public Financial Management (PFM) System. Subsequent to the financial year-end of 30th September, 2014, a preliminary diagnostic review was performed by a consultant and recommendations were submitted to the Ministry in January 2015.

1.39 The Comptroller of Accounts has stated that draft documents such as the Internal Audit Practice Guide, Internal Audit Standards and Internal Audit Charter were produced and that sensitization sessions and workshops with certain key stakeholders were held.

1.40 In December 2014, Cabinet approved the request of the Minister of Finance and the Economy to negotiate a loan of US\$40m for the PFM reforms. No further developments have been made.

NON-SUBMISSION OF DOCUMENTS / RESPONSES TO MEMORANDA

Documents Not Produced

1.41 As described in more detail in the ensuing chapters, there were numerous instances where documents requested for audit purposes were not produced. This represents a serious breach both of the Auditor General's Constitutional and legal right of access to all documents relating to the Public Accounts and of financial and accountability requirements. Financial Instruction 43 states, "*All vouchers, paid cheques and other relevant documents shall on request for Audit examination be made available to the Auditor General or his nominee.*"

Responses Not Received to Management Letters

1.42 Meaningful response to audit issues raised is a crucial step towards resolving irregularities and internal control weaknesses. It also reflects management's commitment to improving fiscal responsibility and achieving good governance.

1.43 Accounting Officers are required by Financial Regulation 8 (l) to "...reply promptly and fully to any queries..." of the Auditor General. Memoranda outlining findings and recommendations have been issued to the Ministries and Departments audited. Requests were made for a response to the matters raised to be submitted within three weeks of the date of issue of the memoranda. Responses from the following entities remained outstanding as at 15th April, 2016:

Contingent Liabilities

1.48 The Attorney General was requested via memorandum dated 18th December, 2015 to furnish by 31st January, 2016, certain information required to assess the value of actual and

contingent liabilities relating to the Public Accounts for the year ended 30th September, 2015 as follows:

- (i) Legal matters and claims handled on behalf of the State during the year ended 30th September, 2015
- (ii) Pending litigation involving the State at 30th September, 2015
- (iii) Judgements obtained during the year
- (iv) Other obligations that could become actual liabilities of the State upon fulfilment of specified conditions
- (v) Actual or where applicable, estimated financial implications (government liabilities or amounts receivable) of each of the above matters (including costs involved) together with the possibility of reimbursement.

1.49 From the response received, the total cost and damages relating to judgements received during the financial year 2015 was \$31,309,980.25.

Trust and Other Moneys Held

1.50 Section 24 (2) (b) of the Act provides for any officer administering any trust or other fund or account not established under section 43 of the Act to submit accounts for audit. An amount of \$177,278,360.86 relating to Trust and Other Moneys Held was disclosed in Note 2 j. to the Appropriation Account of the Judiciary. However, this figure exceeded the balance shown in the underlying records by \$459,464.24. Financial statements of the relevant Trust Accounts have not been submitted for audit.

Realignment of Ministerial Portfolios

1.51 With the change of administration effective 8th September, 2015, there was a realignment of Ministerial portfolios resulting in the reduction of the number of Ministries from 36 to 21. The realignment of Ministries carry with it a number of issues that have a lingering and challenging impact on the management of various aspects of Public Service operations as follows:

- **Payroll Issues:** There is a lengthy process by the Service Commissions Department for the transfer of realigned staff among Ministries. Until transfers are effected, special arrangements have to be made to pay affected staff on the Integrated Global Payroll/Integrated Human Resource Information System (IGP/IhRIS). With respect to the printing of TD4s at the end of the calendar year, the IGP/IhRIS also has to be re-programmed to split TD4s for Ministries, pre-realignment and post-realignment.
- **Pension and Leave Records:** The update of Pension and Leave Records are many times not completed before re-assignment of staff because of the tremendous backlog of these records. This has serious repercussions for timely payment of terminal benefits.
- **Transfer of Records:** There is a risk of misplacement of personnel and accounting records in the transfer to a new Ministry. Where there is a split of portfolios to various Ministries, key staff may be reassigned and proper arrangements not made for transfer of records accordingly.
- **Duplication of Accounting Records:** Depending on the time of the fiscal year implemented, two sets of records for expenditure (Vote Books) may be required pending

approval of the transfer of Expenditure by Parliament. To reduce the impact on the Public Accounts in the current year, the Comptroller of Accounts instructed Accounting Officers and Receivers of Revenue appointed as at 30th September, 2015 to prepare Accounts for the year ended 30th September, 2015 for all Ministries that existed before the realignment.

- **Appropriation Accounts and Signing of Accounting Documents:** Consequent to the realignment of Ministries, there were changes in responsible officials at a number of Ministries/Departments. This resulted in Appropriation Accounts, Statements of Receipts and Disbursements and Financial Statements of Funds being signed in certain instances by persons who were not responsible for transactions occurring during the financial year. Later changes resulted in certain officials who were not signatories to these accounts being responsible for dealing with audit queries and requests. This presented a challenge at times in getting unqualified representations relating to the accounts as required by auditing standards.
- **Change of Name:** There is additional expense incurred for issues such as the change of name on signage, vehicle logos, insurance certificates, vehicle ownership records and Government Fleet Cards.
- **Transfer of Assets:** This gives rise to inventory management issues.
- **Projects at a Critical Stage:** Completion of projects is often delayed.
- **Accommodation:** There is often inadequate or unsuitable accommodation for merged units under a Ministry.

ACCOUNTING FOR EXPENDITURE

SUBMISSION OF APPROPRIATION ACCOUNTS

2.1 Under section 4 (3) of the Exchequer and Audit Act, Chapter 69:01 (the Act), the Treasury is required to “so superintend the expenditure of public moneys as to ensure that proper arrangements for accounting to the House for such expenditure are made.” The Minister of Finance appoints Accounting Officers who are charged with the duty of accounting for the use of public moneys.

2.2 In accordance with section 24 (1) of the Act, Accounting Officers are required to submit Appropriation Accounts to the Auditor General within four months of the financial year-end of 30th September.

2.3 With respect to the financial year ended 30th September, 2015, Appropriation Accounts were required to be submitted by 29th January, 2016. Appropriation Accounts in respect of 46 Heads of Expenditure were received in the Auditor General’s Department by 29th January, 2016. Appropriation Accounts were received after the statutory deadline from the five Ministries/Departments shown below:

ERRORS IN/OMISSIONS FROM APPROPRIATION ACCOUNTS

2.4 Comptroller of Accounts Circular No. 10 dated August 18, 2015 provided detailed instructions with respect to the preparation and submission of Appropriation Accounts for the year ended 30th September, 2015. Nevertheless, typographical and other errors as well as omissions continue to be evident in certain Appropriation Accounts submitted for audit.

2.5 Errors/omissions noted have been referred to the respective entities and have no material effect on the truth and fairness of the Public Accounts except as otherwise stated in this Report.

PERVASIVE ISSUES

2.9 The paragraphs which follow include comments relating to areas where improvements are needed across several Ministries/Departments.

Lease Agreements

2.10 Signed lease agreements were not produced with respect to certain properties for which rental payments were made. This matter was also raised in previous years and has been attributed to the length of time taken by the Property and Real Estate Division of the then Ministry of Housing and Urban Development (now under the Ministry of Public Administration and Communication) to have leases executed. The result is that rental payments are made without formalisation of the relevant terms and conditions. Instances noted are shown below:

Contract Employment

2.11 Personnel Department Circular Memorandum PD (bm) 12/2/1 Vol. IV dated May 18, 2006 stipulates that contract employment shall obtain principally where:

- persons are not available to fill established positions but there is urgent need for services;
- additional persons are required for a special project of limited duration, or
- specialized services required cannot be met by filling established positions.

2.12 Information submitted by Ministries/Departments in response to the Auditor General's request on the number of persons employed on contract during the year and related remuneration payments is summarized in **Table 1** which follows.

Short Term Contracts

2.13 Short Term Employment is defined in the Estimates of Expenditure as “Short Term or revolving employment in specific Government departments and Agencies where each employee’s term does not exceed six months.” However, from the samples selected, a number of instances were noted where employment charged under this vote exceeded the stipulated six months. These are summarized in **Table 2**.

Table 2: Short Term Employment Exceeding 6 Months

Ministry/Department	Sample Size	No. of Persons	Monthly Payments (\$)
05 – Parliament	10/24	5	44,200.00
18 – Ministry of Finance & the Economy – Customs & Excise Division	7/87	2	26,900.00
24 – Ministry of Legal Affairs	15/211	7	56,000.00
39 – Ministry of Public Utilities	12/64	12	66,500.00
58 – Ministry of Justice	15/16	3	33,000.00

71 – Ministry of the Environment & Water Resources	10/92	2	20,200.00
76 – Ministry of Land & Marine Resources	30/232	19	163,510.00

2.14 Feedback from Ministries and Departments reveal that repetition of short term contracts have become necessary to ensure continuity of service delivery as the bureaucratic processes involved in the creation of and recruitment to established posts or long-term contracts are prohibitive due to the length of time and complexity involved.

2.15 These findings draw attention to the need for a comprehensive review of the procedures for identifying and fulfilling human resource requirements across the public service to achieve efficiency and effectiveness.

Storage of Payment Vouchers

2.16 Financial Instruction 34 requires that all payment vouchers be “...carefully preserved and properly stored in a fire-proof safe or vault.” Fire-proof safes or vaults were not used for storage of payment vouchers at locations of the under-mentioned entities. Certain entities have indicated that there are weight restrictions in their current premises which preclude the installation of heavy storage facilities. This is a longstanding issue that needs to be addressed at the following entities:

- Judiciary
- Parliament
- Ministry of Finance & the Economy – Treasury Division, General Administration, Office of the Supervisor of Insolvency
- Ministry of Finance & the Economy – Inland Revenue Division
- Ministry of Finance & the Economy – Customs and Excise Division
- Ministry of Education
- Ministry of Health
- Ministry of Public Administration
- Ministry of Transport
- Ministry of Public Utilities
- Ministry of Tourism
- Ministry of Energy & Energy Affairs
- Ministry of Justice
- Ministry of the People & Social Development
- Ministry of the Arts & Multiculturalism
- Trinidad & Tobago Police Service
- Ministry of Foreign Affairs
- Ministry of Foreign Affairs – Consulate General, Toronto, Canada
- Ministry of Gender, Youth and Child Development
- Ministry of Planning & Sustainable Development
- Ministry of Sport
- Ministry of Works & Infrastructure
- Ministry of Tertiary Education & Skills Training
- Ministry of Science & Technology
- Ministry of Community Development

Inventory Control

2.17 Safeguarding of State property to ensure efficient and effective service delivery is the main aim of inventory control. Proper maintenance of inventory records and tagging of items in accordance with Financial Regulations (Stores) are crucial elements of this function. Weaknesses in inventory control are raised each year by the Auditor General through management letters and in the Auditor General's Report on the Public Accounts. However, breaches continue to be noted at a number of Ministries/Departments. Relevant comments under individual Heads of Expenditure are included later in this Chapter.

2.18 In view of the above and as stated in the prior year, it is imperative that a concerted effort be made by Accounting Officers to ensure that State property is safeguarded at all locations by the application of the provisions of the Financial Regulations (Stores).

2.19 Inventory may arise from expenditure under various categories such as Development Programme, Infrastructure Development Fund (IDF) and Recurrent. During the period 2011 to 2015, purchases of Minor Equipment under Recurrent Expenditure totalled \$1.8 billion as shown below:

Financial Year	\$
2011	518,751,280.00
2012	488,075,760.80
2013	287,109,248.72
2014	209,672,561.26
2015	304,946,591.26
TOTAL	<u>1,808,555,442.04</u>

2.20 A request was made to 51 Accounting Officers to supply information on the total cost of acquisition of inventory under Development Programme during the financial year 2015. Responses received from 11 entities revealed the total cost of inventory purchased under Development Programme by those entities was \$89,271,483.98. No information was received from the other 40 Accounting Officers.

Acquisition of Motor Vehicles

2.21 Requests were made to the Ministry of Public Administration, the Director of Budgets and the Mechanical Services Division of the Ministry of Works and Transport for information on the authorized policy for motor vehicle acquisition across Government with emphasis on type, quality

and cost. Responses revealed that while there are guidelines with respect to the allocation and use of motor vehicles, there are no policy/guidelines to determine the brand and model necessary to facilitate the performance of official duties.

2.22 Varying practices have been noted at Ministries and Departments with respect to the type, quality and cost of motor vehicles acquired. Auditor General's Circular Memorandum 15 of 2015 dd. 23rd December, 2015, requested entities to submit *inter alia* relevant information on motor vehicle acquisitions.

2.23 Responses received from 19 of the 50 Ministries and Departments circularized revealed that 263 passenger cars at costs exceeding \$300,000 each, were purchased by these entities for amounts totalling \$108,878,298.51 during the years 2012 to 2015.

Acquisition of Cellular Telephones

2.24 Requests were made to the Ministry of Public Administration and the Director of Budgets for information on the authorized policy for cellular telephone acquisition across Government with emphasis on type, quality and cost. While there are guidelines with respect to the allocation and use of cellular telephones, there are no policy/guidelines to determine the brand and model necessary to facilitate the performance of official duties.

2.25 Varying practices have been noted at Ministries and Departments with respect to the type, quality and cost of cellular telephones acquired. Auditor General's Circular Memorandum 15 of 2015 dd. 23rd December, 2015, requested entities to submit *inter alia* relevant information on cellular telephone acquisitions.

2.26 Responses received from 21 of the 50 Ministries and Departments circularized revealed that 175 cellular telephones at costs exceeding \$3,000 each, were purchased by these entities for amounts totalling \$746,276.30 during the years 2012 to 2015.

Overpayments

2.27 Overpayments continue to be a major concern since they not only represent a leakage of public funds but result in time and other resources being spent on accounting, recovery, reporting and auditing as well as, at times, emotional factors involved in the recovery process.

2.28 Financial Regulation 83 states that "Every unauthorized payment and overpayment of salary, pension, allowance, wages or other moneys constitutes a debt which is recoverable in full from the payee." Comptroller of Accounts Circular No. 20 dated 17th August, 1988 gives guidelines for reducing the incidence of Overpayments and Unauthorized Payments.

2.29 Overpayments reported for the years 2011 to 2015 are shown at **Table 3** below. From the analysis, roughly 52% of overpayments have been recovered over these years. Ministries and Departments should ensure that systems to prevent and detect overpayments are working effectively.

Table 3: Overpayments versus Recoveries

Financial Year	Cases Reported		Amounts
	Number	Value (\$)	Recovered (\$)
2011	5,280	20,370,970.62	8,492,896.04

2.30 The need for the causes of overpayments to be ascertained and for controls to be strengthened with a view to minimising the incidence of overpayments is highlighted year after year by the Auditor General. An attempt was seen to be made by the Ministry of Public Administration to find solutions to the problem in 2011-2012 and a Committee was set up to address the issue. A draft Report was formulated however, there was no evidence of any further action having been taken.

Reporting of Overpayments

However, reports were either not received or were inconsistent with the information disclosed in the Appropriation Account in a number of instances.

2.37 Regulation 16 (1) of the Central Tenders Board Regulations (made under Section 35 of the Central Tenders Board Act, Chapter 71:91) states:

“A public officer or an employee of the Government, or a member or employee of a Statutory Body or the spouse or any child of such person shall not enter into any contract for the supply of articles to, or the undertaking of any works or services for the Government or such statutory body, as the case may be, and where a person becomes a public officer or employee of the Government or a member or employee of a Statutory Board, after he or his spouse or any child has entered into such contract, the contract with such person or his spouse or any child shall thereupon be treated as terminated upon such terms as the Board considers appropriate.”

“An officer shall not, directly or indirectly, be involved in any financial or other interest or undertaking which could compromise, or reasonably be said to compromise that officer’s job performance or office.”

2.39 In light of the above, Ministries and Departments were asked to submit to the Auditor General, information on the policies and procedures in place during the financial year ended 30th September, 2015 to monitor, detect, manage and report actual or potential conflict of interest situations.

2.40 From the 22 responses received, apart from the processes set down by the Central Tenders Board, seven entities have indicated the existence of working policies and procedures while two indicated their intention to implement a system. There did not appear to be a structured procedure for identifying and managing conflicts of interest at other Ministries and Departments.

3.5 Observations arising from the examination of the systems and procedures for revenue accounting as well as the Statements of Receipts and Disbursements (where received) of the Receivers of Revenue are highlighted in the subsequent paragraphs.

EN1 – PERMANENT SECRETARY, MINISTRY OF ENERGY AND ENERGY AFFAIRS

Revenue Control

3.6 As reported in the previous two years, no evidence was seen that oil and gas production data received from companies and used in the calculation of revenue collectible was verified by the Ministry. The accuracy of revenue from Royalties and Share of Profits from Oil Companies could therefore not be assessed.

3.7 The Petroleum Register provided bore no evidence of certification by a responsible official.

3.8 There was also no evidence that a system exists at the Ministry to monitor revenue received and receivable.

EV1 – PERMANENT SECRETARY, MINISTRY OF THE ENVIRONMENT AND WATER RESOURCES

FN2 – CHAIRMAN BOARD OF INLAND REVENUE, MINISTRY OF FINANCE AND THE ECONOMY

Audit Scope

3.12 As reported in the previous three years, access was not provided to certain data pertaining to revenue at the Inland Revenue Division, by officers citing the official secrecy provisions of section 4 of the Income Tax Act, Chapter 75:01. The Attorney General has assured the Auditor General that the necessary legal provisions to overcome these restrictions will be pursued. To date, there have been no further developments. Paragraphs **1.18** to **1.21** refer.

Documents Not Produced

3.13 Documents not relating to individual taxpayers but necessary to test revenue controls and completeness of revenue were not provided for audit.

3.14 Further, all requests by audit for documents or information had to be screened by the Chairman. This is in direct contravention of section 116 of the Constitution and section 10 of the Exchequer and Audit Act (refer paragraphs **1.14** and **1.15** of this Report), in particular section 10 (1) which states *inter alia*:

“In the exercise of his duties under this Act the Auditor General shall be entitled—

(a) to call upon any officer for any explanations and information which the Auditor General may require in order to enable him to discharge his duties;”.

Revenue Control

3.15 Certified Statements of Revenue were not received from Collectors who did not access the Division’s Revenue Collection System in respect of the following four items:

- Tax on Transfer of Motor Vehicles
- Cinematograph – Arrangement Fee
- Warden’s Search Fees
- Pension Plan Registration Fee.

Amounts were reportedly acquired by telephone. Revenue reported for these items for the year totalled \$37,593,713.75.

3.17 Deposits on the Daily Settlement Summary at one outstation did not match deposits shown on the bank statement of deposit activity provided. A confirmation of the bank balance requested for audit purposes was also not produced. In addition, the Cashier function was performed by persons who were in temporary positions. This is in contravention of Financial Instruction 53 (2) which requires permanent and pensionable officers to perform this duty.

3.18 Custody of receipt books is a critical factor in accounting for revenue and minimising the incidence of fraud. At one location visited however, there was no record in the Counterfoil Register of the dates and persons to whom three receipt books were issued.

HE1 – PERMANENT SECRETARY, MINISTRY OF HEALTH

Revenue Control

3.19 The Cashier function at the Head Office was performed by a temporary officer in contravention of Financial Instruction 53 (2) which requires a permanent and pensionable officer to perform this duty. The Accounting Officer has indicated that this became necessary because requests to the Service Commissions Department for staff were not accommodated.

3.20 There was a lack of segregation of duties with respect to revenue collection, receipting, depositing and recording. Evidence of regular checking by a senior officer in accordance with financial directives was also absent.

3.22 The Cash Book and Remittance Register were not properly maintained and checked in accordance with Financial Instructions 55 and 78 to ensure that all revenue collected is recorded and deposited. Several instances of misclassification of revenue were also noted in the Cash Book while cheques totalling \$85,637.21 for two of the three months checked were not entered in the Remittance Register.

5.71 The Financial Instruction 213 (1) states: “Unless the Treasury otherwise directs, all deposits which have remained unclaimed for three years shall be transferred to revenue.” Findings with respect to individual Ministries/Departments follow.

Trinidad and Tobago Police Service

5.72 An amount of \$456,786.79 in respect of Deposit Account 111/37 has been held in this account since 23rd September, 2008. There was no evidence that a request had been made to the Comptroller of Accounts to retain these amounts in accordance with Financial Instruction 213 (1) and (2).

5.73 Two bank accounts with balances totalling \$1,932,809.92 relating to deposits were not disclosed in Note 5 to the Appropriation Account in contravention of financial directives.

Ministry of Sport

5.74 Amounts totalling \$86,668.38 were not deposited to the Treasury although they remained unclaimed for more than three years. There was no evidence that a request had been made to the Comptroller of Accounts to retain these amounts in accordance with Financial Instruction 213 (1) and (2).

Special Funds - \$6,026,683,635.36

5.75 The composition of this figure is given at Schedule A to the Consolidated Statement of Assets and Liabilities (TS 48 refers).

5.76 There was a net decrease of \$65,605,861.57 or 1.08 percent from the previous year’s balance of \$6,092,289,496.93, mainly due to total repayments of \$932 million made on three bonds partly offset by amounts paid into the sinking fund of \$860 million.

Local Trustees of the Sinking Fund: \$26,420,071.69

5.77 Sinking Fund accounts were established under various legal authorities such as the Development Loans Act, Chapter 71:04 and the External Loans Act, Chapter 71:05 to set aside amounts from the Consolidated Fund to fund repayment of long term loans.

5.78 The Fund balance of \$26,420,071.69 is overstated by \$1,524,635.10 as a result of foreign exchange depreciation relating to the Yen Sinking Fund not adjusted.

Trust Funds - \$358,324,358.36

5.79 The figure of \$358,324,358.36 represents the total of balances on 18 Funds as detailed at Schedule B (TS 49 refers). There was a decrease of \$476,381,223.28 or 58 percent from the balance of \$834,705,581.64 recorded for the previous financial year. This was mainly due to decreases in two Trust Funds - the Petroleum Products Subsidy Fund and the fund relating to the Telecommunications Authority of Trinidad and Tobago.

5.82 The Contingencies Fund was established in accordance with section 16 (1) of the Exchequer and Audit Act to defray unforeseen expenditure not provided for by the Appropriation Act relating to that year. By Legal Notice No. 203 dated 21st September, 2006, the previous authorized limit of \$25,000,000.00 for the Contingencies Fund was increased to \$100,000,000.00. The value of the Fund remained unchanged for the financial year 2015.

Note:

BOLT - Build, Operate, Lease and Transfer, as the acronym implies, is an arrangement whereby Financial Institutions finance the construction of buildings or purchase furniture and equipment required on behalf of the Government.

These Financial Institutions enter into lease arrangements with the respective Ministries/Departments and are paid lease rentals and other fees for the management and maintenance of the buildings etc. while occupied/used by the lessees. At the end of the lease agreements, ownership is then transferred to the Government.
