- (b) if they are not satisfied that it is reasonable in all the circumstances to require the owner to connect the house as aforesaid, but are satisfied that it is reasonable to require him otherwise to take water into the house by means of a pipe, give notice to the owner requiring him within a time specified therein so to take water into the house.

(2) Where a local authority is satisfied that any occupied house has not within a reasonable distance thereof a supply of wholesome water sufficient for the domestic purposes of the occupants and that in all circumstances it is not reasonable to require the owner to connect the house, or to take water into the house, as aforesaid, the local authority may give notice to the owner requiring him within a time specified therein to provide a sufficient supply of wholesome water within a reasonable distance of the house.

The court shall hear any user of the water who claims to be heard, and may cause the water to be analysed at the cost of the local authority.

(3) If a person to whom an order is made under this section fails to comply therewith, the court may, on the application of the local authority, authorise them to do whatever may be necessary for giving effect to the order, and any expenses reasonably incurred by the authority in so doing may be recovered by them from the person in default.
